## How Library materials are shelved?

Library materials are shelved according to the call number on the spine of the materials. The call number on book spine matches the one found in the Library Catalogue.

For example:

Call number in Library Catalogue:  
HG173 .P577 2001

Call number on spine:  
HG  
173  
.P577  
2001

## Call number arrangement:

### How to shelve library materials by call numbers

The first line of a call number will be shelved alphabetically.

For example:

AC	HB	HC	PN	QA
----	----	----	----	----

The second line of a call number will be shelved in numerical order. A call number with a smaller number is placed before one with a larger number.

For example:

90	150	171.5	450	512
----	-----	-------	-----	-----

The third line of a call number will be shelved alphabetically and then numerically. It should be noted that all numbers in this line are treated as if they were preceded by a decimal.

For example:

.C80	.K788	.K90	.L183	.P256
------	-------	------	-------	-------

The final line of the call numbers include dates, volume numbers, issue numbers, copy numbers, and other annotations. In such case, it will follow an ascending order.

Eventually, the call numbers will be arranged like this :

Book 1	Book 2	Book 3	Book 4	Book 5	Book 6
AC 90 .C80 2013	HB 150 .C80 2000	HC 171.5 .K788 2012	HC 171.5 .K90 2013	PN 450 .L183 2003	QA 512 .P256 2011
