Quality Publishing with IEEE

Qing Li

IEEE Client Services/University Partnership Program Manager
About the IEEE

- World’s largest technical membership association with over 430,000 members in over 160 countries
- Not for profit organization dedicated to “Advancing Technology For Humanity”

- Four core areas of activity
  - Membership organization
  - Conferences organizer
  - Standards developer
  - Leading publisher
What we do

- Publish the top-cited science and technology research in the field, most notably our journals, conferences and standards

- Publish 180 journals, transactions, and magazines
- Sponsor more than 1,400 annual conferences worldwide
- Leading developer of over 5,100 industry standards in a broad range of technologies
- Over 4 million documents in the IEEE Xplore Digital Library, with more than 8 million downloads each month
- Over 400 IEEE educational online learning courses, plus IEEE English for Engineering
- Publish technical books in all the fields served by IEEE
Full text content from all 39 IEEE Societies

IEEE Aerospace and Electronic Systems Society
IEEE Antennas and Propagation Society
IEEE Broadcast Technology Society
IEEE Circuits and Systems Society
IEEE Communications Society
IEEE Components, Packaging, and Manufacturing Technology Society
IEEE Computational Intelligence Society

IEEE Solid-State Circuits Society
IEEE Systems, Man, and Cybernetics Society
IEEE Technology and Engineering Management Society NEW in 2015
IEEE Ultrasonics, Ferroelectrics, and Frequency Control Society
IEEE Vehicular Technology Society
IEEE quality makes an impact
IEEE quality makes an impact
Thomson Reuters Journal Citation Reports® by Impact Factor

IEEE publishes:

17 of the top 20 journals in Electrical and Electronic Engineering
14 of the top 15 journals in Telecommunications
3 of the top 5 journals in Computer Science, Hardware & Architecture
3 of the top 5 journals in Computer Science, Cybernetics
3 of the top 5 journals in Automation & Control Systems
3 of the top 5 journals in Artificial Intelligence
2 of the top 5 journals in Imaging Science & Photographic Technology

The Thomson Reuters Journal Citation Reports presents quantifiable statistical data that provides a systematic, objective way to evaluate the world’s leading journals.

Based on the 2015 study released June 2016
More info: www.ieee.org/citations
In 2017, IEEE will introduce six new journals that will be available for subscription:

- IEEE Communications Standards Magazine
- IEEE Journal of Electromagnetics, RF and Microwaves in Medicine and Biology
- IEEE Transactions on Emerging Topics in Computational Intelligence
- IEEE Transactions on Green Communications and Networking
- IEEE Transactions on Radiation and Plasma Medical Sciences
- IEEE Journal of Radio Frequency Identification

All Included in an IEL Subscription

For a complete title listing, to go: http://ieeexplore.ieee.org/xpl/opacjrn.jsp
New IEEE Journals Coming in 2016

In 2016, IEEE will introduce four new journals that will be available for subscription:

- IEEE Transactions on Intelligent Vehicles
- IEEE Journal on Multiscale and Multiphysics Computational Techniques
- IEEE Robotics and Automation Letters
- IEEE Transactions on Sustainable Computing

All included in an IEL subscription

For a complete title listing, to go: http://ieeexplore.ieee.org/xpl/opacjrn.jsp
The IEEE conference collection continues to grow

Now over 1,400 annual conferences.
Over 1.5 million total papers.
Topics Covered

1. Publishing choices
2. Paper Structure
3. Peer Review—Do vs. Don’t
4. Author Tools
Choices
Publish
IEEE journal or IEEE conference?

- A **journal article** is a fully developed presentation of your work and its final findings
  - Original research results presented
  - Clear conclusions are made and supported by the data
- A **conference article** can be written while research is ongoing
  - Can present preliminary results or highlight recent work
  - Gain informal feedback to use in your research
- Conference articles are typically shorter than journal articles, with less detail and fewer references
Publish
IEEE journal or IEEE conference?

**IEEE Journals**
- IEEE journals are cited 3 times more often in patent applications than other leading publisher’s journals

**IEEE Conferences**
- IEEE Conference proceedings are recognized worldwide as the most vital collection of consolidated published articles in EE, computer science, related fields

**PRO**

- A high percentage of articles submitted to any professional publication are rejected

**CON**

- Per IEEE Policy, if you do not present your article at a conference, it may be suppressed in IEEE Xplore and not indexed in other databases
Transactions and Journals

PES sponsors or co-sponsors six peer-reviewed technical journals. Only the highest-quality papers are considered for publication. As such, the acceptance rates are generally between 10 and 15 percent. Authors should consider this high standard for quality before submitting their manuscripts.

Open Access

The IEEE Transactions on Energy Conversion, IEEE Transactions on Power Delivery, IEEE Transactions on Power Systems, IEEE Transactions on Smart Grid, and IEEE Transactions on Sustainable Energy are hybrid journals, allowing either Traditional manuscript submission or Open Access (author-pays OA) manuscript submission.

- The OA option, if selected, enables unrestricted public access to the article via IEEE Xplore. The OA option will be offered to the author at the time the manuscript is submitted. If selected, the OA discounted fee of $1,750 must be paid before the article is published in the journal. If you have unusual circumstances about this, please contact the Editor-in-Chief. Any other applicable charges (such as the over-length page charge and/or charge for the use of color in the print format) will be billed separately once the manuscript formatting is complete but prior to publication.
- The traditional option, if selected, enables access to all qualified subscribers and purchasers via IEEE Xplore. No OA payment is required.

The IEEE Power and Energy Technology Systems Journal is an Open Access only publication. Open Access (OA) allows unrestricted public access to the article via IEEE Xplore. In lieu of paid subscriptions, authors are required to pay a publication fee after their paper has been accepted ($1,350 per manuscript up to a maximum of 8 published pages; $120 per additional page).
Journals, Transactions, and Letters are the primary means for publishing technical papers concerning original work in IEEE fields of interest.

- The primary purpose of Journals, Transactions, and Letters is to disclose and provide a permanent archival record of original technical work that advances the state of the art or provides novel insights.
- Letters are for the publication of brief papers, usually three to four pages in length.
Magazines

Magazines are characterized by regular and continuing issues with significant technical content in addition to general news and regular columns

- IEEE Communications Magazine
- IEEE Microwave Magazine
- IEEE Signal Processing Magazine
- IEEE Instrumentation & Measurement Magazine
- ......
IEEE Publication Recommender™

Find the best match for your scholarly article

- Search 170+ periodicals and 1500+ conferences
- Compare critical points such as Impact Factor and Submission-To-Publication Time

- Get all the key data about IEEE publications at a glance
- Download the results of your search

Choose a search type and let Publication Recommender do the work!

- Both Periodicals and Conferences
- Periodicals only
- Conferences only

Enter keywords, key phrases, or article title

Extract keywords from your article
Enter your abstract here or upload your article file (PDF, DOC, DOCX, TEX).

Peer Review
How does the review process work?

- Editor-in-Chief gets the paper after it goes through content match check (iAuthenticate) and “banned author” check
- If the paper is in scope for the journal, it is assigned to an editor (associate editor)
- Editor assigns the paper to five or more reviewers
- Reviewers send their comments back to the editor
- Editor makes a recommendation to the EIC as follows
  - Accept
  - Revise & Resubmit
  - Reject
- The EIC makes the final decision and informs the corresponding author
Audience

Why IEEE editors and reviewers reject papers

- The content is not a good fit for the publication
- There are serious scientific flaws:
  - Inconclusive results or incorrect interpretation
  - Fraudulent research
- It is poorly written
- It does not address a big enough problem or advance the scientific field
- The work was previously published
- The quality is not good enough for the journal
- Reviewers have misunderstood the article
Ethics

Ethical publishing

Plagiarism

- Avoid plagiarism
  - Cite and separate any verbatim copied material – but how much?
  - Paraphrase other’s text properly, and include citation
  - Credit any ideas from other sources
  - Familiarize yourself with IEEE Policies

Crosscheck!

https://crosscheck.ieee.org/crosscheck/

Refer to our Tips Sheet
Ethics

Ethical publishing

Duplication, Redundancies & Multiple Submissions

• Author must submit original work that:
  • Has not appeared elsewhere for publication
  • Is not under review for another refereed publication
  • Cites previous work
  • Indicates how it differs from the previously published work
  • Authors MUST also inform the editor when submitting any previously published work

Refer to our Tips Sheet
Author Tools
IEEE offers a suite of tools to help authors prepare their manuscript and find the right publication outlet. Our package of tools is unique among scholarly publishers.
First, identify yourself with ORCID

ORCID is a unique, persistent identifier for authors that helps them:

➢ Ensure work is discoverable and connected to them throughout career (including moves and name changes)
➢ Minimize time spent entering repetitive information for manuscript submissions and grant applications
➢ Eliminate name ambiguity and ensure proper attribution
   ➢ More info at orcid.org

IEEE now requires ORCIDs for all corresponding authors (effective July 2016)
Preparation of Papers for IEEE TRANSACTIONS
and JOURNALS (December 2013)

Fist A. Author, Fellow, IEEE, Second B. Author, and Third C. Author, Jr., Member, IEEE

II. Guidelines for Manuscript Preparation

When you open TRANS-JOUR.DOC, select "Page Layout" from the "View" menu in the status bar (View/Page Layout). (These instructions assume MS 6.0. Some versions may have alternate ways to access the same functionalities noted here.) Then, type over sections of TRANS-JOUR.DOC or cut and paste from another document and use markup styles. The pull-down style menu is at the left of the Formatting Toolbar at the top of your Word window (for example, the style at this point in the document is "Text"). Highlight a section that you want to designate with a certain style, then select the appropriate name from the style menu. The style will adjust your fonts and line spacing. Do not change the font size or line spacing to squeeze more text into a limited number of pages. Use italics for emphasis; do not underline.

To insert images in Word, position the cursor at the insertion point and either use Insert/Picture/From File or copy the image to the Windows clipboard and then Edit/Paste Special/Picture (with "FileStream" unselected).

IEEE will do the final formatting of your paper. If your paper is intended for a conference, please observe the conference page limits.

A. Abbreviations and Acronyms

Define abbreviations and acronyms the first time they are used in the text, even after they have already been defined in the abstract. Abbreviations such as IEEE, SI, sc, and dc do not have to be defined. Abbreviations that incorporate periods should not have spaces: write "C.I.R.S." not "C. I. R. S."

Do not use abbreviations in the title unless they are unavoidable (for example, "IEEE" is the title of this article).

B. Other Recommendations

Use one space after periods and colons. Hyphenate complex modifiers. "Zero-field-cooled magnetization." Avoid dangling participles, such as, "Using (1), the potential was calculated." [It is not clear who or what used (1).] Write instead, "The potential was calculated by using (1)," or "Using (1), we calculated the potential."

Use a zero before decimal points: "0.25," not ".25." Use "cm," not "cc." Indicate sample dimensions as "0.1 cm x 0.2 cm," not "0.1 x 0.2 cm." The abbreviation for "seconds" is "s," not "sec." Use "15.5 m" or "15.5 meters," not "15.5 m in." When expressing a range of values, write "7 to 9" or "7-9," not "7-9."
Author Tool: Reference Preparation Assistant

The IEEE Reference Preparation Assistant is an automated tool for use by authors to validate references against both the IEEE Xplore and CrossRef databases in order to ensure successful on-line linking. This tool should be used before submitting an article to IEEE. Please log in to begin.

Use AuthorLab in IEEE Collabratec for additional support and help

https://ieee-collabratec.ieee.org/app/community/18
Submit

Journal paper submission is easy through IEEE Xplore®

Click “Submit a Manuscript”

Follow the prompts to set up an account
Submit

Use conference site (not IEEE Xplore) to submit to a conference

For complete information, see the Call for Papers for the conference in question.

Each IEEE sponsored conference has its own requirements for publishing.
Throughout the process...Refer here early and often – IEEE Author Digital Tools

Author Digital Tools

IEEE Author
DIGITAL TOOLS

Below are information and tools to assist with all stages of publishing with IEEE.

Preparing your article

IEEE Publishing Policy
(PDF, 46 KB)
Important Information for authors interested in publishing in IEEE Transactions, Journals, and Letters.

Register for an ORCID
Register for the persistent digital identifier that distinguishes you from every other researcher.

Overleaf Collaborative Authoring
IEEE has partnered with Overleaf to allow authors to collaborate, write articles, and share files.

IEEE Style Manual
(PDF, 574 KB)

Keywords Suggested for Authors
(PDF, 328 KB)
Authors are encouraged to select keywords from this list. It comprises the first three hierarchical “levels” under each term-family (or branch) that is formed from the top-most terms of the IEEE Thesaurus. If you cannot find appropriate terms, you may add your own.

Article Templates
Includes templates and instructions on how to prepare your papers for publication in IEEE Transactions and Journals.
IEEE Author Guide Always Available

- Authors learn how to prepare, write, and submit quality technical articles
- Can be downloaded
- Includes embedded links to information, forms, etc.

For more information or to download: http://www.ieee.org/publications_standards/publications/authors/publishing_benefits/index.html?WT.mc_id=pb_ben_pub
