Introduction

The Student Career Services Team of Student Affairs Office (SAO) is dedicated to provide support and guidance to our full-time undergraduate students/graduates for their job hunting and career planning. Our services include:

- Furnish up-to-date recruitment and industry information to students;
- Provide career education programme to gear up students towards their career journey;
- Organize various recruitment activities to canvass job vacancies for students;
- Provide face-to-face career consultation for specific career advisory.

To boost students’ knowledge of employment market and equip them with necessary job hunting techniques, our team has formulated a comprehensive career development plan for our students. The plan is incorporated into their whole study period through providing an array of career education and recruitment activities.

For our prospective employers, we, on the one hand, assist recruiters every step of the way in the recruitment process, on the other hand we have been exploring bilateral collaboration opportunities with our prospective employers.

Please let us know your recruitment needs by getting in touch with us by calling at 2768 6644 or by email at career@ouhk.edu.hk.

Melody LEE
Graduate in English Language Studies

“OUHK provides excellent education to students which undeniably increase my interest in English. Besides, the courses, such as semantics and pragmatics, are useful and practical for me. Professors and even tutors are so helpful and encouraging that motivate us to learn better and nurture us to think critically. I believe that students from OUHK are active, indomitable, humble and willing to learn. All we need is time and an opportunity to prove.”
1. Job Postings (Including graduate posts and internships)
Our team manages an online job board which provides a free and easy-to-use way for the employers posting job advertisement for our students and graduates. To speed up the recruitment process, employers may seek our assistance to collect student applications. Our team also provides shortlisting and screening services to employers upon request. Employers may contact our team for arrangement.

To post a job vacancy, employers are required to complete and return the “OUHK Student/Graduate Recruitment Form” which can be downloaded from our website (www.ouhk.edu.hk/SAO/career) (Select “Career services for employers”) and provide us with a copy of Business Registration for our verification and approval.

2. Recruitment Talks/ Company Visits
Employers may consider organizing recruitment talks or company visits so as to give some ideas and background information of the company for our students. The recruitment talks could be on-campus or off-campus. Interested employers will be invited to complete the “Recruitment Talk Request Form” and provide us with a copy of Business Registration for our verification and approval. The form can be downloaded from the above website.

3. Job Fairs
Our team organizes various types of recruitment activities for our students throughout the year. The large-scale Job Fair is one of them. It provides an effective recruiting platform for the recruiters to approach our students on campus. On the other hand, our students could get up-to-date job market information through the event. The schedule of Job Fair may vary every year so employers may contact our team for details.

4. Tailor-made Internship Programmes
Our team keeps trying to explore placement opportunities for our students. Employers are welcome to contact our team to explore any formats of internships.

"OUHK is a university that provides their students with a high degree of freedom. Students are free to choose courses they feel interested to study, as long as the requirements of their programmes are met.

In 2014 summer, I was employed by the Legislative Council as an intern. I was attached to the Public Information Division and the Administration Division. Providing groups of children with accurate information about Law-making process through role-play and storytelling was my responsibility. In there, I tried to put my knowledge into practice and I found it was very useful, thanks to OUHK.”

Kivan CHAN
BSc (Hons) Psychology
current student
The University

The Open University of Hong Kong (OUHK) was established by Government legislation in 1997, having served the community since 1989 as Open Learning Institute of Hong Kong to provide higher education opportunities at the degree level by means of open learning. It extended its service to offer full-time face-to-face Bachelor’s Degree programmes to secondary school leavers in 2003. Since 2007, OUHK has offered full-time undergraduate programmes through the Joint University Programmes Admissions System (JUPAS). There are over 7000 students studying full-time face-to-face undergraduate and sub-degree programmes in OUHK in academic year 2014/15.

The University’s four Schools offer a range of degree programmes (Please refer to the table below). The Schools include
- School of Arts and Social Sciences
- Lee Shau Kee School of Business and Administration
- School of Education and Languages
- School of Science and Technology
